## GLBH-2072 Gently Handles Round Bales

The GLBH-2072 is designed especially for those producers who operate tractor front loaders that use the Euro / Global tool carrier to mount their attachments. The Euro / Global interface is incorporated into the frame design providing strength and durability. Having the mounting interface designed into the frame assure an OEM quality fit of the attachment to the loader arms.

The GLBH-2072 will gently handle large round wrapped or unwrapped bales up to 2,200 lbs. It features smooth curved clamping arms to prevent puncturing wrapped bales, yet securely clamping them during transport.

Integrated Euro / Global mounts keep the GLBH-2072 close to the loader arms helping provide better control and balance. This is ideal when loading / unloading trailers.

## Euro/Global Mount

The Euro/Global mount is incorporated into frame. This assures a OEM quality fit to the loader arms making attaching easy.

## Curved Arms

Features smooth curved arms to prevent bale wrap puncture. Their design allows the producer to handle round bales from 4' to 6'. Both arms open & close to gently clamp the bale.

**The GLBH-2072 is available now.**

Model	Item #	Description	Weight	List
<b>GLBH-2072</b>	832980	Designed for tractor front loaders that use the Euro/Global quick attach system. Unit will gently handle wrapped and unwrapped round bales from 4-ft to 6-ft in diameter. Rated at 2,200 lbs. unit includes hydraulic cylinder less hoses.	525 lbs.	\$2,495.00
