## Weld-on Plate for John Deere 500 Series

Worksaver, Inc. announces the addition of a Weld-on Plate for John Deere 500 series loaders to complement our lineup of weld-on plates and kits. Formed from 5/16" steel for durability this plate offers owners' of 500 series loaders a reliable and easier method for converting attachments. Designed to be welded to existing attachments, the plate will interface with John Deere 500 series loaders that use the JD 500 series attaching system. The JD 500 Plate features steel cast upper hooks, welded locking pins spaced to OEM specifications to assure proper fit when welded to buckets or other attachments.

Production starts: July 2015

Note: JD 500 Plate will ship UPS

Item #	Description	Weight	List Price
