## Q-Series Hydraulic Post Drivers

Worksaver's Q-Series Hydraulic Post Drivers offer ingenious solutions to routine maintenance items to keep the operator building fence.

Q-series hydraulic post drivers feature two time-saving QuickChange™ systems. They are designed to increase the service life of the components in addition to reducing the time required to service the driver.

Worksaver's SplitCap™ with enhanced cylinder rod design allows the operator to perform routine maintenance on the rod cap seal without removing the cylinder from the driver.

Worksaver's new Q-Spring assembly reduces spring changeover from hours to minutes. This design offers increased service life when compared to conventional post driver springs. The integrated spring/spring-anchor design, when mounted to the damper, reduces vibration which further provides increased spring service life.

A single bolt, top/bottom retains the Q-Spring assembly to the cushioned mount allowing the springs to be serviced without removing the ram from the carriage assembly, which boosts productivity by reducing maintenance time. This design reduces spring changeover to less than 1-hour.

## Q-Spring

Integrated spring anchors provide single bolt installation to cushion mounts resulting in easier spring replacement and increased service life of the spring. Spring life is increased over conventional springs with this design.

## Cushion Mount

Cushion mounts reduce spring vibration and driving ram shock, resulting in increased reliability.

# Quick Change

Design of the Q-Spring assembly along with its innovative mounting system, allows the operator to replace the springs without removing the driving ram from the carriage. This time-saving design keeps the operator building fence.

# SplitCap™

SplitCap™ design allows the operator to service the rod cap seal without removing the driving ram from the mount.

Available Now.

Note: Shipped via truck freight.

<b>Item #</b>	<b>Description</b>	<b>Weight</b>	<b>List Price</b>
<b>HPD-22Q Hydraulic Post Drivers</b>			
815300	HPD-22Q	795 lbs.	\$4,805.00
815310	HPD-22Q HFL	1275 lbs.	\$7,905.00
815315	HPD-22Q MSS	828 lbs.	\$5,675.00
815320	HPD-22Q HSS	1245 lbs.	\$8,150.00
815325	HPD-22Q HSS/P	1385 lbs.	\$11,525.00
515330	HPD-22Q SHC	1035 lbs.	\$7,205.00
815335	HPD-22Q SWO	1878 lbs.	\$11,560.00
<b>HPD-26Q Hydraulic Post Drivers</b>			
815345	HPD-26Q SHC	1215 lbs.	\$8,715.00
815350	HPD-26Q HSS	1429 lbs.	\$9,660.00
815355	HPD-26Q HSS/P	1575 lbs.	\$13,035.00
815360	HPD-26Q SWO	2194 lbs.	\$13,070.00

The new Q-series Hydraulic Post Drivers continue Worksaver's innovation with Post Drivers. In the past 24-years Worksaver has brought the following enhancements to the market:

1. First to have "convertible" hydraulic valve
2. Grease zerks installed on major pivot locations
3. Plated manual adjustment cranks
4. First to replace rollers with plastic slide blocks
5. First to have adjustable legs
6. First to install bubble level on all post drivers
7. Patented skid steer return line kits
8. QuickChange™ cap/seal (SplitCap™) design
9. Q-Springs, QuickChange™ spring assembly
