**SAFETY RULES**

**ATTENTION! BECOME ALERT! YOUR SAFETY IS INVOLVED!**

**TRANSPORTATION**

- Always comply with all state and local laws governing highway safety and lighting and marking requirements.
- Never allow riders on tractor or attachment.
- Do not operate or transport on steep slopes.
- Use extreme care and reduce ground speed on slopes and rough terrain. Travel with attachment as close to the ground as possible.
- Do not operate or transport equipment while under the influence of alcohol or drugs. Consult your doctor about operating this machine while taking prescription medications.

**OPERATION**

- Always sit in tractor seat when operating controls or starting engine. Securely fasten seat belt, place transmission in neutral, engage brake, and ensure all other controls are disengaged before starting tractor engine.
- Know your controls and how to stop engine and attachment quickly in an emergency.
- Consult local utilities before working. Know location of and avoid contacting all underground cables, pipelines, overhead wires and other hazards in working area.
- Operate only in daylight or good artificial light.
- Keep bystanders away from equipment.
- Keep hands, feet, hair, and clothing away from equipment while engine is running. Stay clear of all moving parts.
- Never allow riders on tractor or attachment.
- Look down and to the rear and make sure area is clear before operating in reverse.
- Use extreme care when working close to fences, ditches, other obstructions, or on hillsides.
- Do not exceed the load capacity of the loader or the adapter.
- Watch for and avoid hidden obstructions, i.e., buried pipes, rocks, concrete piers, uneven concrete slabs, stumps, etc., when operating.
- Stop loader gradually when lowering or lifting loads.
- Never use any of these attachments for a work platform or personal carrier.
- Never leave equipment unattended with the engine running, or with this attachment in a raised position.
- When stacking material, ALWAYS MAKE SURE MATERIAL IS PLACED SO THE STACK IS STABLE.
- When on a slope, keep the load low and proceed with extreme caution. Do not drive ACROSS a steep slope - drive straight up and down.
  
  With a LOADED attachment - face the attachment and load uphill.
  
  With an EMPTY attachment - face the attachment downhill.
- Keep alert and watch the rear as well as the front when working with the front loader.
- Before leaving operator's seat, lower loader and put attachment on the ground. Engage brake, stop engine, remove key, and unfasten seat belt.
